

# Self Ordering Systems for office canteens Place orders on SO Touch Kiosk or use Own Phone

Fast cashless, paperless ordering while reducing interaction with canteen staff :

With Palas's Self Ordering (SO) solution,

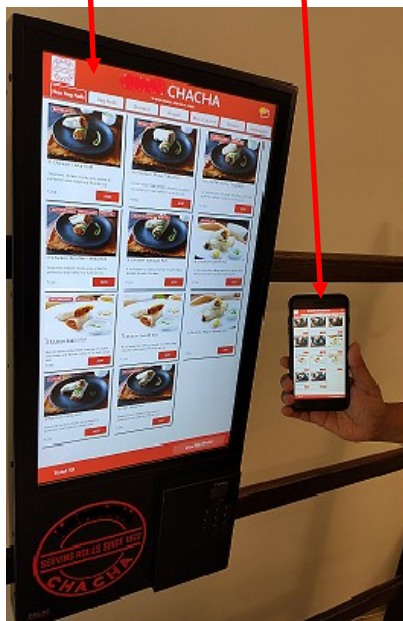

- Today's menu items are displayed on SO kiosk on its large touchscreen display
- Employees select items by touching menus on the SO Kiosk, or using their own phones.
- Payments via e-wallets or credit/debit card or employee Smart Card
- Note down confirmation token number or receive on your phone
- Service counter also gets token number and order details
- Go to service counter, show token number, and collect order
- Saves time, as ordering and payment are combined
- reduces paper / cash handling related infection issues
- Hygienic—ordering from own phone has no risk. Ordering from kiosk also has no risk as Palas kiosks can be easily sanitised several times a day.
- Optional - if counters are dedicated to single item (eg veg meal or nv meal) then employee scans QR code at counter, and amount gets debited to his employee id, for monthly settlement

**Saves time, as minimises interaction with staff**, as no need for employee to first ask staff which items are available today, then after making a selection give coupons for amount, or get fresh coupons after making payment.

## Hardware & Software Made in India
