

Touch Systems manufactured by Palas are used in a variety of areas - banking, transportation, hospitality, factories, machine control, robotics, gaming, smart cities, and many more

Palas manufactures its own hardware in India, with an open architecture based on Windows or Linux or Android. Customers can easily use their own application software on Palas hardware. Palas also develops customised software for some special applications, designed to make self-service kiosks easier to use

Palas Donation Kiosks can offer a choice of payment systems including legacy Credit/Debit Card and Cash. Palas B series kiosks are ideal for the fastest growing segment of e-wallets like UPI, PayTm, etc

Palas B series are modular, and more features can be added on later as needed. Sleek just 3” depth
